WHY USE 5th WHEEL BIOBASED GREASE

- **VALUE:** The customer will get a **Green** product at competitive pricing.
- **PERFORMANCE:** The grease has excellent wear characteristics and superior stability on sliding surfaces.
- **LUBRICITY:** It takes advantage of the four fold lubricity characteristics of soy oil over petroleum oil.
- **ADHESION:** Soy oil has strong adhesion to metal surfaces.
- **RENEWABLE RESOURCE:** 90 percent plus of the content is made from USA renewable resource.
- **BIOBASED CONTENT:** The grease qualifies for preferred purchase in agencies requiring products with biobased content.
- **READILY BIODEGRADABLE:** 5th Wheel Grease biodegrades rapidly.
- **ENVIRONMENTALLY FRIENDLY:** It meets potential future requirements within the trucking industry for alternate 5th wheel lubricant.
